in question did belong to my sister but was placed in the bin outside the house and must of been taken out by somebody to try to find information and or bank details for my sister and or nephew and brought over the road and placed there by somebody else rather than my sister or nephew . My sister is in Intensive care in North Middlesex hospital and has been since 21/11/24 and previous to that was bed ridden for more than a week . nephew does not leave his house and nobody apart from myself has been to my sisters home . All of the black bags that are in that picture have nothing to do with my sister or my nephew (they are not theres) as you will see from the picture below , on Tuesday 26/11/24 I booked a slot at barrowell green and brought all my sisters rubbish to the dump so why would there be any need to fly tip ? My sister does have a doorbell cam but at the moment is so unwell and incoherent that it is impossible for me to get any of the footage as I do not have any passwords for her phone or computer . I am extremely sorry for this

need to fly tip ? My sister does have a doorbell cam but at the moment is so unwell and incoherent that it is impossible for me to get any of the footage as I do not have any passwords for her phone or computer . I am extremely sorry for this happening and am extremely concerned that this has happened . If I could explain to you any better I would but the reasons I give are the only way I can believe this could have occurred . Below is the picture of my appointment at the dump and the reason there is no need for me/us to fly tip .
